DYNAMIC WEBSITES

Are you using the web to enhance your products and services?

Interactive websites help you deliver dynamic reports and statistics to stakeholders. Even confidential documents such as monthly statements and account balances can be delivered using your web site if it is equipped with appropriate databases and other technologies.

The interactive websites we provide come with;

- **Content Management tools**
- **Discussion Forums for online dialogue with your stakeholders.**
- **Embedded databases which you can use for collecting records from remote offices or branches**
- **Database applications to give you dynamic reports and statistics based on the records collected**
- **Security features for controlling access to your information resources.**
- **Facilities to enable mobile phone users interact with your web-database and website.**
- **Web based Calendar Management System for scheduling company meetings, conferences and other events**

Here is an example of the Online Diary application you would get with your website

The screenshot shows a web browser window displaying an online diary application. The page header includes navigation links (Home, About Us, Products, Services, Demos, Events, Talk to Us, Contact Us) and a user profile (Logout moffat). The main content area features the 'info holdings' logo and a 'welcome' message. Below this is a 'Workshop Schedule' section with instructions: 'Use the arrows below to navigate the calendar and view the scheduled dates and times, mouse over a specific date to view program details'. The calendar displays the period from Monday, February 01, 2010, to Sunday, February 28, 2010. A tooltip is visible over the date February 7th, providing details for a meeting: '12:00PM-12:00AM Ndola meeting. The meeting agenda is as follows: 1. Database and website 2. MIS 3. How mobile devices work on the web?'. The calendar grid shows various events scheduled throughout the month, including meetings in Ndola, Lusaka, and Kitwe. At the bottom of the page, there are links for 'Appointment information received from server', 'Privacy Policy', and 'Intranet'. The browser's status bar at the bottom indicates 'Local Intranet' and '100%' zoom.

Monday	Tuesday	Wednesday	Thursday	Friday	Sat/Sun
1 February	2	3	4	5	6
	12:00AM-12:00AM Ndola r				7

Using these facilities you would be able to schedule company events and stakeholders would be able to read the diary over the Internet – a great way to co-ordinate the management of large meetings and hundreds of stakeholders in different parts of the country or even the world.

We also offer

* Free hosting for 3 months and utilization of the following database technologies

1. MySQL
2. SQL Server 2005
3. SQL Server 2008
4. MS Access

* Unlimited E-mail addresses for your staff, customers or stakeholders.

Web Database:

This product comes with a FREE interactive website and web hosting for 3 months.

You will be able to:

- **Collect detailed records from your branches,**
- **Provide summarized and detailed reports to management and other stakeholders even if they are in remote offices**
- **Save on printing and delivery costs by delivering confidential statements and reports using the web**

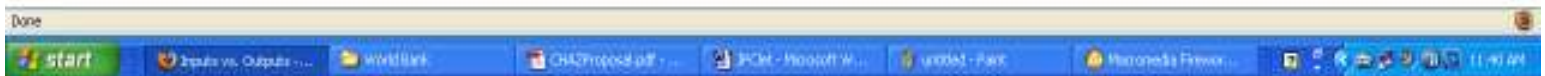

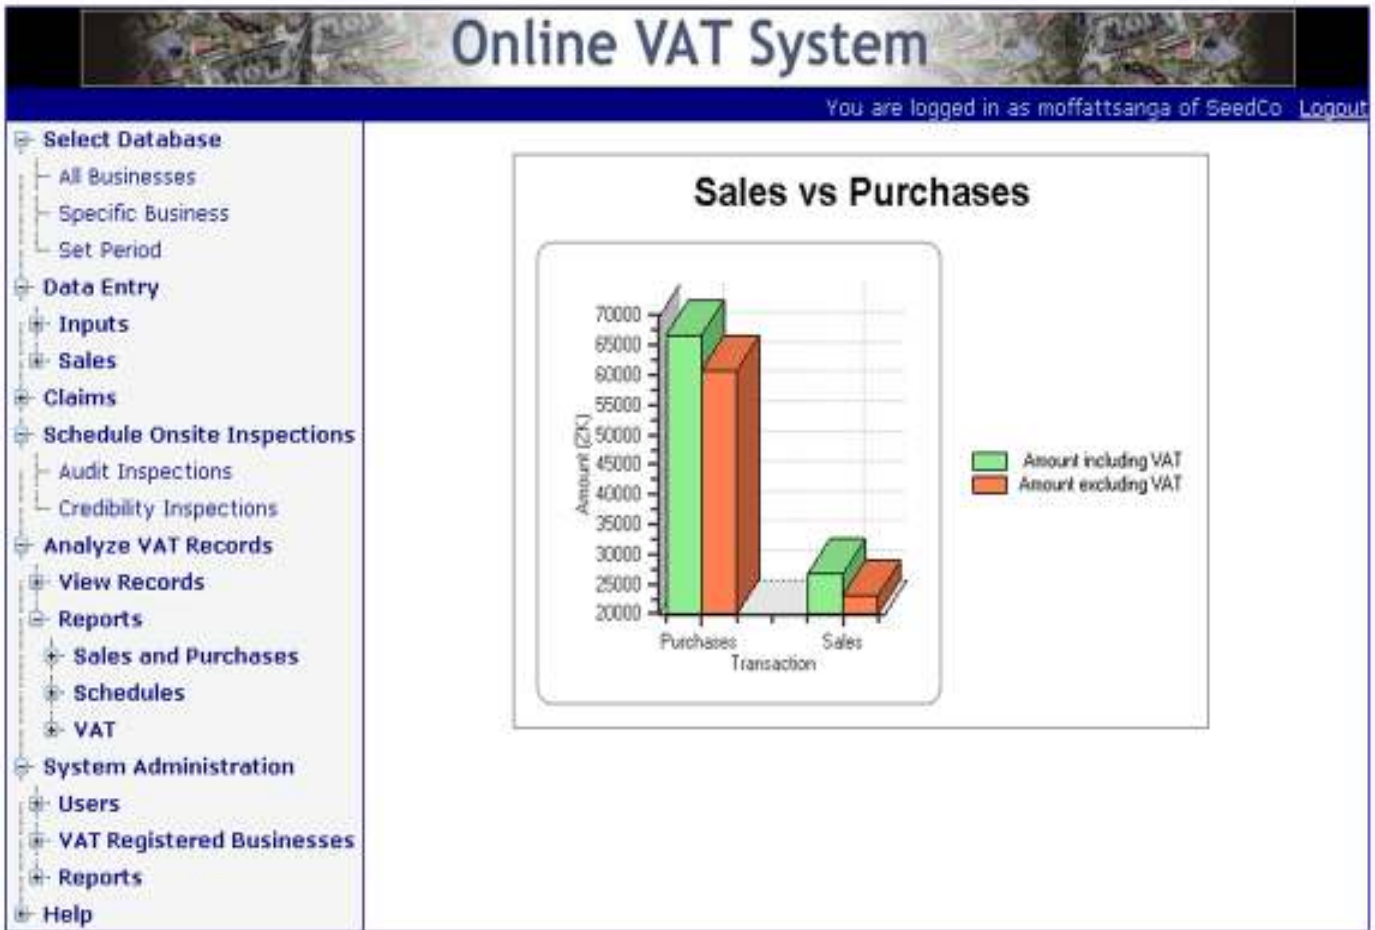

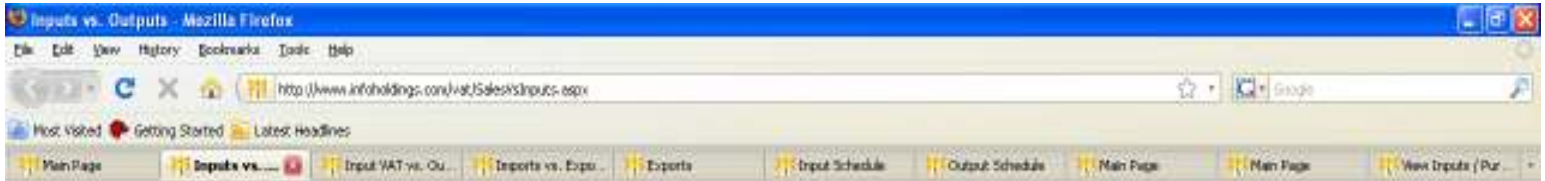

Why not harness the power of the Internet to cut down on operational costs and still reach your customers and stakeholders or even use the web to find prospective customers.

Built into your website will be a database that is capable of generating dynamic reports and statistics based on the records collected from your organization's branches and offices.

Net 125, Kabulonga, P. Bag E835, Lusaka, Zambia, Phone/Fax (+260.211) 263.208
Physical Address 26 Cedar Road, Woodlands, Lusaka, Zambia
E-mail: info@infoholdings.com website: www.infoholdings.com

The database will provide charts like the one below but only to authorized stakeholders, whether they are staff or customers.

Net 125, Kabulonga, P. Bag E835, Lusaka, Zambia, Phone/Fax (+260.211) 263.208
Physical Address 26 Cedar Road, Woodlands, Lusaka, Zambia
